The Fort Sill Massacre.

St Louis, August 29 —The *Evening Dispatch* publishes authentic information from Fort Sill as late as August 21st, which is to the effect that on the 20th inst Gen Davidson left Fort Sill with his cavalry, under orders of Gen Auger to suppress Indian disturbances on the Texas frontier leaving but three companies of troops to garrison the fort The expedition was expected to be gone forty days Nothing has been heard from them since the above date but the weakness of the garrison and the knowledge that the Indians in that region are familiar with all that relates to the defense of the fort, causes much apprehension on the part of persons here who have friends and relations at the post that the report from Waco, Texas of its capture and the massacre of its inmates may be true

Honest Iago!—A Canadian paper repeats the following anecdote with great unction Five years ago a gentleman in the United States (as gentlemen frequently do in that and other countries) got up a railroad speculation for which it was thought necessary that there should be a Government subvention The affair was duly submitted to Congress, and an engineer of high character who was without a wit was appointed on the part of the Government to report on the scheme. This scientific man visited the country returned, and was one day sitting in his hotel with a friend lying on the sofa, when one of the railroad promoters entered and addressed the engineer in a low whisper Speak out, said the engineer. Accordingly ascertaining that the other party present was a friend he said in a loud voice—Mr Smith if you will fix that report to suit us we will give you $30 000 of the stock Mr Jones, was the reply when you want to bribe an honest man—an honest man, mind you—come right down with your spondulics darn your stock '

He reports the Canadian Pacific railroad graded from Puget Sound to Jasper's House a distance of 1,000 miles. A good number of men are employed east of that point to Fort Edmonton, where the work is comparatively easy, as they are through the Rocky Mountains and will henceforth encounter but little difficulty from there to the Red River of the North a distance of 600 miles. From thence to the Lake of the Woods, the eastern terminus, will be almost as easy as though it was along the Missouri valley The road will be completed at a very early day, as men and money are abundant"

A gentleman writing from La Conner, W T, to the Olympia *Transcript*, says Perhaps something about our crops would be of interest to you To say that crops are good does not express it. The grain, particularly oats stands as high and higher than a man's head In fact there was a Baptist missionary preacher (Mr Freeman) and an attendant crossing the flats and took a trail through Mr Cornelius oat field The oats in places were lodged and covered the trail, and they got lost in the grain field. The old gentleman said that he wandered around and around until he was fairly tired out, and thought he would have to lay down and give it up We will have in the vicinity of La Conner in all probability about thirty or forty thousand bushels of grain, mostly oats The Skagit and Stillaquamish tide flats about as much more It is estimated that there will be one hundred thousand bushels in Whatcom county this year The harvesting is fairly commenced—everybody is busy and much encouraged" If we can get anything like a fair price for our grain we will be all right and will double the amount next year

AS GOOD FOR OREGON AS FOR NEW YORK.

Of all the great journals of the United States, only the New York *Times* has been for some time past regarded as a party organ, in the sense in which that phrase is generally understood. The others have been independent, so far as to criticise freely the actions of the parties they respectively favored, whenever they thought there was occasion for criticism. And even the *Times* has in one or two instances shown a disposition to speak out against the corrupt practices of the political ring which has taken the destinies of the Republican party of New York into its hands. Once the *Times* has been "read out of the party" by the Custom House ring, for its bold and fearless attacks upon the scheme they might force through the last Legislature to secure to themselves absolute control of the government of the city of New York; but the ring soon saw the necessity of reading the *Times* back into the party, without standing upon the order of the reading, and they ate the humblest of pie with no visible grimaces. So the *Times*, satisfied, as it might well be, with its victory, went on the even tenor of its way, but refrained from any further strictures upon the conduct of "the party." But now the *Times* is offending again. It urges the people to take hold of the matter of making nominations for the coming State election, in order that the rule of professional politicians may be brought to an end, and declares that until this is done there can be no hope of securing fair nominations or good candidates. The politicians, it well says, are scarcely [illegible] to be blamed than the people for the fact that unfit men are put into office, because the latter refuse to avail themselves of the opportunities offered them to choose candidates for themselves. This we presume is as true of New York as of Oregon, and if so, we fully indorse the *Times'* view of the matter. There is no class of men, be they professional politicians or mechanics or farmers, who if allowed to run the machinery of the Government in their own way and with instruments wholly of their own selecting, will run it for the best interests of all concerned, and they who stand aloof till it is too late to act effectually for fear they will bind themselves to support a wrong, are entitled to little sympathy when at last they find themselves ignored and disregarded by those who are disposed to do their part toward righting the wrongs that all perceive, and many strive earnestly to remedy. We hope never to be misunderstood for one who has the least [illegible] disposition to apologize for the corruptions and oppressions that have been brought into politics through the rule of professional politicians and rings, but we would feel very much greater hope of seeing a reform in this direction if the people would act as well as scold. At [illegible] by so doing they would show a higher appreciation of the virtues they call so loudly for, which is more than they can reasonably expect to accomplish by refraining from all participation in political affairs.

THE EXCITEMENT THROUGHOUT THE STATE.

Last week we called attention to the unusual enthusiasm that characterized the primaries of the Saturday previous in Portland and Salem, those of both parties having been held on that day. That the intense excitement which prevailed in those two metropolitan centers was equaled in Lane and Douglas counties appeared by our correspondence from those counties, published about the time of the great event. From our exchanges we learn that the people in other portions of the State were equally frantic in their zeal for the success of the [illegible], each vieing with every other in his efforts for the triumph of his party and of his particular ring. Just read what the Dalles *Mountaineer* says of the performance at that city:

> Precinct meetings were held by both Democrats and Republicans, for Dalles precinct, on Saturday last. No particular interest appears to have been taken by the members of either party. We are informed that scarcely enough were in attendance at either meeting to furnish delegates, and both had to forage on the outside to fill up their lists.

And then look at the *Republican's* account of the glorious contest "over in Polk":

> Mr. H. N. V. Holmes, of Salt Lake precinct, met at the school house, at the hour appointed for both primaries. There being no one present to represent either party, Mr. Holmes felt it his duty to see that his precinct was not left unrepresented. He called the meeting to order; then came down from the stand and made an enthusiastic speech for both parties; then proceeded to nominate and elect delegates to attend the County Conventions of both parties; then, feeling the thing had been a perfect success, shook hands with the old school house and started home. It is due to Mr. Holmes to say that on his return home he gave certificates of election to the persons he had that day chosen on both sides, Democrats and Republicans, and at last advices they were perfectly satisfactory.

A DIFFICULT PROBLEM.

A correspondent at Eugene writes that only a part of the precincts of Lane county were represented in the County Convention last Saturday. There were less than one-third of the precincts represented by the delegates chosen, the places of the others being filled, as the juries are sometimes, by "respectable bystanders." In Columbia county no attention whatever has been paid to the call for a Convention, and of course there are no delegates.

It is now plain that the Conventions of both parties are to be mere matters of form, and it is probable that neither party will be represented in its Convention to any respectable extent. These proceedings, however, will serve to preserve the organizations for future operations. Unless something shall transpire to arouse the people from the apathy that has thus far marked the opening of the contest the aggregate vote of the State will be extremely small, and the chances of success in such a case it is impossible to calculate. Neither party can claim any very large majority on a fair vote, and where considerable numbers of both parties occupy the position of uninterested spectators of the race no one can predict the result.

We are reliably informed that H. W. Scott, Esq., has retired from the position he has heretofore occupied on the Portland *Bulletin*.

DEATH OF JUDGE WYCHE.

It is with sincere sorrow that we chronicle the death of Hon. J. E. Wyche, late a Judge of the Supreme Court of Washington Territory, which occurred on the 29th inst., while he was on the Eastern bound train. He had long been a resident of the Territory, having come there in 1861 as Judge by appointment of President Lincoln. For some years Judge Wyche has been out of health, and has had little hope of final recovery. A Mississippian, he possessed the characteristics of a Southern man, but throughout the war of the Rebellion, he was a staunch friend of the Government. He was a lawyer of considerable ability, and a genial companion, which secured him the respect and friendship of the entire profession, from whose ranks he will be greatly missed.

WASHINGTON COUNTY REPUBLICAN CONVENTION.

REPUBLICANS "SPEAK OUT IN MEETING"—JUST THREE TO ONE—DELETERIOUS EFFECTS OF A PERTURBED MIND.

HILLSBORO, August 30th, 1873.

TO THE EDITOR OF THE OREGONIAN:

The Washington county Republican Convention met at Hillsboro to-day. All the precincts were represented except Wapato, members present from that precinct declining to give in their credentials or act for the precinct.

J. S. Griffin was chosen Chairman, and A. J. Anderson, Secretary, of the Convention on permanent organization.

On motion the Convention proceeded to the election of four delegates to attend the State Convention, the result being as follows: A. Hinman, of Forest Grove; A. C. Archbold, of Hillsboro; A. Llewelling, of Dairy Creek, and James McKay, of Butte.

A. S. Watt, of Forest Grove, then arose and offered the following preamble and resolutions:

WHEREAS, Virtue and honesty are the cardinal principles at the foundation of all true prosperity, both private and public; and

WHEREAS, The virtue and honesty of a people in a republic are rightly judged of by that of their representatives; and

WHEREAS, No people—especially no young and growing people—can afford to lose or jeopardize their good names; and

WHEREAS, Facts have recently come to light in connection with the history of John M. Hipple, *alias* John H. Mitchell, that render him unfit to be the representative of any people having the least regard for their good name or the public interests, and more especially to be the representative of a State having the personal record and the bright future that Oregon boasts and fondly hopes.

Therefore, be it Resolved, That the Republicans of Washington county, in Convention assembled, knowing that it is idle to ask such a man to resign the position he wrongfully holds, hereby wash their hands of such as John M. Hipple, and hold him as an alien and an enemy.

This gave occasion to considerable discussion, during which Mr. Watt supported the resolution in an able speech, reviewing at considerable length the course of Mr. Hipple-Mitchell, and showing that the "indiscretions of his youth" were exactly of a piece with his subsequent career.

Mr. Thomas H. Tongue, Hon. A. Hinman and others addressed the Convention *pro* and *con*.

Mr. Tongue moved to lay the preamble and resolution on the table, which was lost. The preamble and resolution were then adopted by a vote of 18 to 6—just a three-fourths majority.

With the exception of the feeling caused by this proceeding the Convention was quite harmonious.

MONDAY MORNING SEPTEMBER 1 1873

CITY.

Another Pioneer Gone.—Again are we called upon to chronicle the demise of another of Oregon's old pioneers in the person of Mr Wm Lavery. This old and well known resident of the State departed this life at his home in Milwaukie on the 28th inst after a painful and protracted illness. Mr Lavery was born in Washington county, Pennsylvania, on the 6th of May 1810. In February 1851 he was united in marriage with a Miss Alexander who still survives the death of her consort. During the spring of 1851 Mr Lavery and family removed to this State. He settled on a farm in Washington county near the Tualatin river where he continued to reside until within a few months prior to his death. Last spring he removed to Milwaukie, where he remained until his death. Mr Lavery was a consistent Christian gentleman, peaceable, industrious, a good citizen, an exemplary husband and a kind father. He leaves a widow and daughter and a large circle of friends to mourn his removal from this life. Although his physical suffering at times was most acute, he bore it with patient resignation and peacefully breathed his last in the full belief of the Christian faith. Thus one by one the old pioneers of the State are passing away.

Sawmill Destroyed by Fire.—About 11 o'clock on last Saturday evening a sawmill situated on the Macadamized road, one mile and a half south of the city caught fire and was wholly consumed. Appearances would indicate that it was the work of an incendiary. Two men engaged to watch the premises left the mill for a short time and repaired to the house where dancing was going on. They stood for a few minutes looking in at the window and then started to return. Just as the watchmen turned around to go back they were amazed to discover the mill on fire. The alarm was given, but the fire spread so very rapidly that before anything could be done the building was wrapped in flames. Everything was destroyed except the boiler and some portions of the machinery. It is thought that some incendiary was waiting for an opportunity and when the watchmen left the mill the torch was applied. There appears to be no other reasonable explanation for this fire as the mill had not been running for some time. The value of the mill was estimated at about $2,000. It was formerly owned by Ross & Holden, but was sold some time ago to several parties in the city.

Bound for Portland.—The steamer *John L. Stephens*, which sailed from San Francisco for Portland last Saturday, has on board the following passengers: Captain John Harloe, General L. Baum, M Rosendorf, S. Redlich, S A Clarke, R B Holmes, C. E. Tilton, Miss C Powelson, Mrs Johnson, Mrs James Lotan and son, Miss E Kessler, F J Crouch, W H Crouch, G W Moore, A J Hapgood, A A Wigmore, L. B Adams, J L Hepburn, T T Wright, Miss B Goodenough, Mrs Captain Metzger, Mrs E Shumaker, Mrs J Simon and child, I B Clason, I F Salmon, B D Hume and wife, E J Godfrey, R T Langrell, G A Dorman, Miss S H Mann, Rev J Wilson and wife, A Augenes and wife, F Colter, Frank Winters, J Jacobson, E A Davis.

Wetterhorn Arrived.—This vessel—Capt Rich—arrived here last evening from Astoria in tow of the *Mary Bell*. The *Wetterhorn* sailed from San Francisco on the 14th of August and arrived off the Columbia river bar on the 20th. The principal portion of this bark's cargo consists of salt, which will be discharged in a few days. The *Wetterhorn* was built at Bath, Maine, some years ago, but is as staunch and seaworthy as when first launched. Her dimensions are, length, 151 feet, hold, 20 feet, beam, 30 feet, with a registered capacity of 700 tons. The vessel is under charter to Laidlaw & Gate to carry a load of grain to Liverpool. After discharging cargo, the *Wetterhorn* will have quick dispatch for that port.

Democratic Delegates.—The Democratic County Convention was held in the city on last Saturday, for the purpose of choosing delegates to attend the State Convention, which will be held in Portland on the 9th inst. The following persons were chosen as delegates: George L. Curry, Shubrick Norris, J S M. Van Cleave, J C Carrol, R J Ladd, Al Zieber, J L. Scoggins, B L. Norden, W H Effinger, E. A. Cronin, E. J. Jeffries, H. L. Herman.

Crossed the Bar.—The three masted schooner *Hera* arrived off the bar a few days since, and crossed over to Astoria, where she now is lying. The *Hera* came from New York to some of the South American ports with a full cargo. From there the schooner came in ballast to this port, subject to orders. In a few days the *Hera* will arrive here, when her ballast will be discharged, and she will have quick dispatch for San Francisco.

Telegraphic Matters.—On Saturday Col O P S Plummer, assisted by several other persons laid the cable for the southern line. This cable will be connected with the cross-arm line which is nearly finished to a point on the railroad line nearly opposite the foot of Stark street. The line to Milwaukie, from which point it extends southward will be discontinued after Wednesday—the new line above spoken of being substituted.

The Lecture.—Bishop Peck will deliver a lecture this evening in the audience room of the Taylor street M E Church commencing at 8 o'clock punctually. His subject will be "Science and the Spirit World." This lecture will be free and a cordial invitation is tendered the public. The well-known eloquence and power of Bishop Peck as a speaker will command for him a crowded house.

Appointed.—A. J Marshall, Grand Master of R W Grand Lodge, I. O. O. F. of Oregon, appointed Mr A Noltner Editor of the Oregon City *Enterprise*, as Grand Representative to the Grand Lodge of the United States which meets in the city of Baltimore in September. Mr Noltner was appointed in place of A I Stinson, resigned.

A Fine Residence.—Mr Carmichael of this city, has just completed the carpenter work on Mr J Crellin's residence at Oysterville. The finishing touches will be completed in a short time. When ready for occupation the dwelling will be the finest erected on Shoalwater Bay. Cost about $6 000.

Vessel Off.—As the *Ben nett* crossed the bar a vessel was seen "standing off" a long distance, apparently bound in. She is thought to be the bark *Vesta*, which is overdue here from Liverpool, with an assorted cargo.

All Right.—Mr R Everest of Newberg called last evening and informed us that his nephew John Everest, the talented musician of this city, was alive and well on Friday. That settles the question.

From Sitka.—The steamer *Gussie Telfair* arrived on Saturday from Sitka and way ports with a full cargo and few passengers. She will sail hence in a few days.

Portland, August 30 1873.

Agreeably to the call of the Republican State Central Committee the delegates elected at the primaries held Saturday August 23d met in Convention at the Court House at 10 o'clock A. M. on Saturday August 30 1873 for the purpose of electing fifteen delegates to the Republican State Convention to be held at Albany on Thursday the 11th day of September 1873 for the purpose of nominating a candidate for member of Congress to fill the vacancy occasioned by the death of Hon J G Wilson.

AMUSEMENTS.

Wilson's Circus gave a performance on Saturday afternoon and also in the evening to immensely crowded houses. The company pulled down the pavilion late at night and started for the Sound. They will return to the State in time for the State Fair.

We are gratified to make the announcement that Madame Bishop and troupe will visit Salem to-morrow, and in the evening give a grand concert at Reed's Opera House. Our Salem friends will doubtless give this famous cantatrice a cordial reception and an overwhelming house on Tuesday evening.

Madame Bishop and troupe gave a matinee concert at Masonic Hall on Saturday afternoon to a very large, appreciative audience. The second concert of the series this evening. The programme will be entirely new and attractive. We would urge every one who can afford the expense to go by all means and hear Madame Bishop and her splendid troupe.

CONSECRATION OF TRINITY CHURCH

Trinity Church in this city was consecrated yesterday to the worship of Almighty God according to the rites and ceremonies of the Protestant Episcopal Church. Thirteen clergymen besides the Bishop took part in the services. The request to consecrate was read by Dr R Glisan, Senior Warden of the Church. The congregation was exceedingly large, many having to stand throughout the whole service which lasted for three hours. The missionary meeting in the evening was also largely attended. The speakers were the Rev J H Wall of Walla Walla, Rev Dr Nevius of La Grande and Rev [illegible]

TO THE PUBLIC.

We are now receiving on the way a new and fresh stock of furniture which will be superior in quality and lower in design than the one destroyed [illegible] which we will offer for sale on cheap [illegible] terms. Meanwhile we are well prepared to supply the present demand from our temporary location, corner of Fifth and Taylor streets near the U S Custom House. Respectfully

HURGREN & SHINDLER

Multnomah Engine Co. No. 2.—Special meeting this MONDAY EVENING at [illegible] o'clock. By order of the President.

[illegible] F. A. THOMPSON, Sec'y.

EPISCOPAL CONVOCATION.

Saturday Aug 30 1873 10 A. M.

The minutes of previous meeting were read and approved.

The following lay delegates not present yesterday appeared and were admitted to seats:

LAY DELEGATES.

F Hitchcock, St Peter's Tacoma; J. W. Whalley, St Stephen Portland; [illegible] Hoyt, St Paul's Salem.

The Committee on the State of the Church then made their report as follows:

The Committee on the State of the Church find in the admirable address of the Bishop such a complete representation of the State of the Church from every aspect as leaves nothing to be added by them. They would only give expression to the perfect sympathy which they have with the Bishop both in that which he deplores and in that from which he takes courage and hope.

In considering the fact that while new and important fields are continually opening and calling for clerical services our clerical force is not increased to any adequate extent, the committee would call attention to the recommendation of the Convocation held at Vancouver that a general missionary should be employed by Convocation.

The attention of Convocation is also called to the recommendation by the Bishop that the Depository should be discontinued.

It seems to the committee that courtesy demands from Convocation that the thanks of the body should be formally expressed and conveyed to such companies as have extended to clergymen the opportunities of traveling on half fare.

The committee would therefore report the following resolutions and recommend their adoption:

Resolved, That the Convocation will undertake to supply to the Bishop for the support of a missionary $600 in addition to any sum which he may receive within the field of his ministry, and that offerings to this end shall be asked from all parts of the jurisdiction.

Resolved, That the Committee on the Church Book Depository be hereby instructed to clear up the affairs of that institution by sale of stock on hand or otherwise, and that said institution be thereafter discontinued.

Resolved, That the Secretary be instructed to convey to the Presidents of such railroad, steamboat and stage companies as have afforded to clergymen on duty the courtesy of complimentary and half fare tickets, a thankful recognition of the same.

The report was adopted.

The Hon Judge Deady offered the following resolution, which was unanimously adopted:

Forasmuch as the Rev John McCarty D D was one of the early missionaries to this country and in a great degree instrumental in laying the foundations of the Church in this jurisdiction, therefore be it

Resolved, That we hail with pleasure the appearance of this veteran of the Cross in this Convocation and hope that his Heavenly Master may permit him to gladden and assist the councils of this Church with his presence for many years to come.

Dr Nevius claimed as one of the latest come to the jurisdiction the honor of seconding the resolution. He said that when he looked upon the small number of clergy and the comparative weak condition of the church, and was reminded by the hoary head and bowed shoulders of some who came young to the work of the long time during which this work had progressed to its present proportions he was tempted to discouragement, but when he saw the glory which rests upon the hoary head reflected from an honorable and saintly life, and the affection with which his brethren follow him he is reminded that the good measure, pressed down and running over which men give into the bosom of those who have well served them, is but an earnest and foretaste of that fuller and satisfying reward of labor which in Christ waits for us in store. He was glad this resolution had been offered and felt honored in being able to second it.

The Committee on Christian Education made a report which was adopted.

On motion of the Hon Judge Deady, Article V, of the Rules of Order was amended by striking out the word "township" in the first line and inserting "precinct."

A motion to amend the form of Articles of Association by inserting the word "Parish" in place of "Church" wherever it occurs in Article I IV V was carried.

On motion the faculty of the Bishop Scott Grammar School were empowered to send one lay delegate to future sessions of this body.

The following amendment to Article IV was adopted: "And in case there be no clergyman or vestry in any parrish, the Bishop may appoint delegates from such parrish."

The Rev J W Sellwood moved to amend Article VIII of the Rules of Order as follows: "After appointment of said committees, it shall be in order to read reports from committees holding over from preceding convocations." Adopted.

Article VIII Section 9 of the Rules was amended on motion of the Rev J H Babcock by the addition of a Committee on unfinished business, laid over or ordered by former convocations.

The Secretary of the Convocation made a report. He had received during the year $180 and paid the same for printing and other necessary expenses of the Convocation.

On motion 500 copies of the Journal of the Convocation were ordered printed.

The thanks of the Convocation were tendered to the church people of the city of Portland for their kind hospitality to members during the session of Convocation.

On motion a committee of two was appointed to revise the minutes before publication in the Journal. Rev T A Hyland and Hon Judge Deady were appointed on this committee.

After devotional exercises the Convocation adjourned to meet at such time and place as the Bishop may appoint.

The Convocation was well attended throughout and was remarkably harmonious. Action was taken on several important matters and work was accomplished which will tell for good on this young and growing jurisdiction.

OUT DOOR SPORTS.

There was a game of base ball played on the east side last Saturday afternoon, the contesting nines consisting of the regular nine of the Pioneer Club minus Lownsdale, whose position as short stop was filled by Joe Wiley, and a picked nine composed of the following players: Matthews c, Oliver p, Austin 1st b, Cushing l f, Speck s s, Strong c f, Deady r f, W Warren 2d b, Pratt 3d b, and change catcher; the former six of the Pacific Club, the two latter members of the Clackamas Club—Deady being selected to fill the vacancy occasioned by the absence of Rice of the Clackamas Club. Game was called by Mr C B Upton the Umpire at 1:45, the Pioneers as usual winning the toss. The picked nine retired with a blank in the first inning—and this looked like business. Our hopes were blasted at the end of the second inning when the figures began to show double. Up to the seventh inning the playing was simply miserable and the crowd which at the opening of the game numbered at least one hundred persons among whom we observed several ladies who take great interest in the pastime, began to leave the grounds. With the exception of the seventh inning the game proved a tiresome show to the spectators. The batting was strong on each side, the average number of bases taken on each strike being two. There seemed to be no one about when a ball went to the field and if there happened to be any body there the ball was either allowed to pass or a palpable muff was the result. In the field the best playing was done by Strong of the Picked Nine and Raleigh of the Pioneers. The Oregon City boys not being at home were excusable for their misplays. In their own club their record always stands the highest. Their batting was as good as any player's present on that eventful occasion. There was the usual grumbling about Mr Upton umpiring, and in one or two instances the grounds for complaint were fully justified. We do not believe that gentleman would render a decision unjustly, and when a decision was given that seemed wrong we think Mr Upton gave it firmly believing he was correct.

Below is appended the result by innings:

	1	2	3	4	5	6	7	8	9	
Picked Nine	[illegible]

Umpire—C B Upton, Pioneer Club.

Flys missed—Picked Nine [illegible] Pioneers [illegible]

ILLUMINATION OF MOUNT HOOD.

Portland, August 28th 1873.

To the Editor of the Oregonian:

Considerable discussion was provoked when it was noticed through your columns that an offer was made to illuminate Mount Hood on the night of the Fourth of July, unanimity being secured only on one point, viz: that it was a simple impossibility for any person to survive the rigors of its piercing blasts and biting frosts through the weary hours of a long night, if not to find one possessed of sufficient courage and hardihood to brave not only its unknown dangers but also the sage predictions of those wiseacres who confidently saw the ghastly frame of grim Death looming over through the gloom of a summit sunset. But, despite these doleful croakings and maledictions of the self-convincing scientific demonstrations of our city chemists, there was one who by thorough observation and calculation satisfied himself that the feat of remaining on the summit of Mount Hood during the night was not only possible but quite practicable. This person was Perry A. Vickers—the same who offered to illuminate on the Fourth of July.

With characteristic fortitude and resolute perseverance he set forth from the base on the morning of Saturday the 16th at [illegible] o'clock, encumbered with blankets, telescope, thermometer, provisions, fuel, etc—in all over sixty pounds weight—and slowly wended his toilsome way up precipitous banks glittering with their icy coats, over yawning chasms gaping with treacherous lips, ill-concealing their gloomy depths, over gravelly stretches, temporary resting places of immense boulders waiting but a touch to precipitate themselves with irresistible momentum down almost perpendicular declivities, and woe to a living impediment; across immense portions of granite rock, with innumerable fissures breathing forth hot streams of sulphurous vapors, the stones too hot to touch; then warily around the towering rim of a dismal crater, from the narrow footing of which one false step would hurl the unfortunate pedestrian into eternity, either headlong into the distended mouth of the dark crater or into the hardly less awful chasm on the other side; then—not to mention miles of arduous toil over seemingly endless beds of soft snow—finally creeping up the last icy almost perpendicular 200 feet fraught with unceasing peril, our intrepid pedestrian stands high above the clouds safely on the summit! Who can fancy the sublime grandeur of the scene, the poetic gorgeousness of the panorama, as one isolated speck of humanity stands miles above his fellow-creatures gazing upon old Sol as he gently lingers on the ruddy horizon, radiating his glowing crimson, and while sinking softly out of sight behind oceans of fleecy clouds smiles back a glow of sparkling light upon the adjoining mountain tops who so affectionately raise their snow-capped heads and pure white bosoms to bestow a parting glance of regret on the declining luminary! To feel that he is there far beyond the petty turmoils of a swaying world while the heavy mantle of night is being drawn more closely over the surface of that mountain, standing with all its sternness, enclosing seething waters that struggle and writhe, as with frantic efforts trying to free themselves from the interminable yoke of thaldrom!

As the severity of the cold was the ever prominent obstacle in the way of success we give the record of Mr Vickers according to Farenheit. At the base of the mountain at 5 A. M. the thermometer stood at 52° at Rock Station, time 5 45, it was 44°. Reaching the belt of perpetual snow, at 6 30 it was 38°. Lower Drift Rocks, 36°, opposite the Grotto, time 9 30, still 36°. Surmounting the hot Center Rocks at 10:30, it soon attained 52°, at the lower rim of the crater at 11 5 it was 50°, and did not vary until the top rim was reached. The summit was reached at 1 o'clock with the thermometer at 42°, at 5 P. M. it was 32°, at 7 it was 28°. Through the night it never went below this range, and at 6 A. M. it rose again to 30°, 32° at 9, 33° at 11, 42° at 11 30.

Doubtless there are many who doubt the statement that the summit was ever reached, and many more who cannot be convinced that Mr Vickers remained there all night. There might be grounds for the incredulous did he not take steps that render it impossible longer to entertain a doubt on the subject. He took with him some folds of magnesian wire, making prior arrangements as to the hours of illumination with those below—who were camped at Summit Prairie about 8 miles from him—so that at 9:30 P. M. an expectant crowd was assembled eagerly awaiting further developments. In the clear cloudless night the mountain crest could be seen looming up quite distinctly, and arched with the blue vaulted canopy, spangled with the bright stellar groups, shining in unmistakable contrast to the dull mass of rock and snow. Suddenly on the topmost pinnacle there gleamed forth a bright glowing light precisely at the appointed time, which was greeted by an enthusiastic cheer by the assembled gazers. There were in all about 25 persons, ladies and gentlemen, among whom may be mentioned the Hon James Powell, Senator David Powell, Messrs Linnemann, Williamson, McCall, Barnes, and many others of unimpeachable veracity. The light burned steadily for about one and a half minutes and then disappeared. At intervals during the night there were seen in all ten lights. So now the feasibility of illuminating Mount Hood is affirmatively settled, all credit to Mr Vickers who has worked so indomitably in achieving this triumph over public incredulity. And we may venture to hope that being now experimentally proven those croakers will hush their opposing voices if ever the grand illumination of Mount Hood on the 4th of July is again mooted.

Yours etc

Some people may become excited over the "terminus" of the Northern Pacific Railroad on Puget Sound but it does not disturb Beck & Waldman, corner Front and Washington streets in the least, as they intend to pursue the usual course to their customers and that is to sell goods at prices which will enable those with limited means to provide themselves with good clothing at a very small outlay of money. Parents should bring their children to this house for neat fitting suits.

Time Tries All Things, and has proved that Dr Wistar's Balsam of Wild Cherry is the remedy *par excellence* for the cure of coughs, colds, croup, whooping cough, bronchitis, asthma, phthysic, sore throat and influenza. It cures coughs and colds *instanter*. It soothes the irritated parts, it heals the inflammation, and even consumption itself yields to its magic influence.

Edward Bayer, Esq, Horton, Kings Co., N. S., writes that an astonishing cure has been effected on his daughter by the use of *Johnson's Anodyne Liniment*. The whole spine became diseased, she lost the use of her limbs and her back was rounded up like a bow, in consequence of having taken cold after having been inoculated for the kine pock. She is now well.

We pledge our reputation on the assertion that any educated physician, after a careful examination of the recipe, will say that *Parsons' Purgative Pills* possess more merit than any other pill now offered for sale.

Hottentots Athletic Buchu, for Helmbold's Extract has become almost a historical picture. The great composition of Dr Helmbold's Buchu attests the important fact that it is unequalled as a diuretic medicine. For Dropsy, Gravel, Kidney Complaint and all diseases of the urinary organs, either in male or female, there has never been a remedy equal to Helmbold's Buchu. Its imitators are mere trash. Helmbold's is the old reliable standard remedy.

Private advices have been received from Wisconsin stating that Phineas Sawyer, member of Congress, committed suicide by cutting his throat on Wednesday 20th inst. No cause is assigned.

The Marysville *Appeal* of the 22d instant says: "The old San Francisco printer who came up in this office yesterday and set a thousand ems of type for the Greeley monument will please bring back the two composing sticks he carried off, there will be some trouble made for him."

Chicago, Aug 15.—A harvest festival was held at Clinton, Dewitt county, Ill, yesterday, some 5000 people being present. Addresses were delivered by Gov Beveridge and ex Gov Palmer. The speeches were confined mainly to a discussion of the wants and needs of farmers and the most practicable means of relief from alleged impositions of railroads.

It is now said the project for arming the police of New York city with breech loaders will be entirely abandoned. The action of the Board of Police recently in ordering the discontinuance of drilling men with muskets has excited considerable interest in the Department. Governor Dix has not approved the scheme although it was submitted to him.

The indications are that strong efforts will be made at the coming session of Congress for the repeal of the law abolishing the franking privilege. It is said that with the exception of the Postmaster General the other members of the Cabinet, backed by two thirds of the heads of Bureaus, favor the repeal, at least so far as official business of the Department is concerned.

It is said the Democratic State Central Committee of New York will not be called until the return of Samuel J. Tilden from Europe. Secretary of State Nelson has already signified his willingness to accept a renomination if tendered him, although himself and friends do not wish to be considered as throwing any obstacles in the way of Diedrich Millers, Jr, beaten by Scribner in 1870.

Professor Hayden, of the Geological Survey, writes from a point among the Rocky Mountains one hundred miles from the nearest post-office, that the Expedition is now among waters that flow in a grand river into the Colorado. He adds that they are in the grandest mountain scenery in the world and are close to two of the highest peaks in the United States. They have named them "Capitol" and "White House." They have named the great range on the upper Arkansas river the "National Range," as it is the largest in the United States. They were 12,000 feet above the level of the sea and fifty peaks can be seen 14,000 feet high. Professor Hayden will reach Washington by the first of October.

Wheat in Liverpool—Average California 12s 10@13s 10d. Club 13s

We know of no important event in our local finances to chronicle. The banks and capitalists generally are acting with a degree of caution highly commendable and whilst extending a fair degree of favor are yet holding their resources well in hand to avoid any heavy speculative operations, while making legitimate transactions their encouragement which is the greatest benefit. The spring and summer stringency has had the effect of inducing traders generally to make short collections, and whilst disposing of their wares at close cash or short late dates to be prepared for the money weather. Happily their foresight has proved vastly beneficial not alone locally but through out a large expanse of country. The banks too after initiating this policy have kept close to it the consequence being that an easy money market and sufficient resources for all business purposes must be a ruling feature during the fall and winter.

A leading commercial exchange says there are those who traders and speculators should learn to deny themselves and think liberally of institutions even after being refused an extent of a commodation which they consider themselves justly entitled to. An easy money market usually means an easy method of meeting bills at maturity and this being the case business men are lavish in their business transactions and giving extended credit they must necessarily be lavish in ordering heavy bills of goods—in whatever department of trade they are found. When a financial pressure is felt, the depositor in a bank can loan his money to better advantage and draw it. The merchant or trader sends in his accounts and they remain unpaid he finds customers too unable to meet their notes at maturity the banks are obliged—owing to legitimate demands from depositors and other sources—to reduce discount lines and thus the entire machinery of a traders transactions is thrown out of gear and he blames the bank for his own want of foresight. A stringency such as has [illegible] been [illegible] frequently results in [illegible] to [illegible] trial circles, and the [illegible] wise policy of the present year—if pursued in the future—[illegible] crown with success the efforts of all [illegible] whose transactions affect the money market.

Eastern Markets.

From the commercial dispatches to our San Francisco exchanges of August 25th we collate the following concerning movements in staple commodities in some of the principal trade centers on the Atlantic side

Crop accounts continue all that could be desired and supplies of domestic produce continue ample to meet the large call for them while the general absence of speculation leaves movements free to be governed by the legitimate laws of trade. In the earlier part of the week there was a decline of 6@7c in Wheat, owing, to an advance in freights and more liberal receipts, but yesterday and to-day there has been a reaction and most of the decline recovered. The [illegible] have been very large including heavy purchases for September and October delivery at [illegible] below spot prices which for various export grades of Spring range from $1 45@1 60. Continental buyers have competed sharply with English buyers.

In the New York Wool market there is considerable inquiry for [illegible] but holders are somewhat firmer in their views and business is restricted. Buyers are in the market and show a disposition to purchase quite freely, but they refuse to meet any advance in price, the full rates being paid. There is a [illegible] of California [illegible] pounds at 35½c for spring and 22@25c for fall. At Boston the Wool market continues quite firm and buoyant, but without any advance in prices, although the tendency is upward, [illegible] for choice and fine [illegible]. Sales to manufacturers and others have been large and if receivers had been willing to accept current rates for all fleeces and Wool in their possession, they could have disposed of every desirable lot. There were [illegible] sales of California the past week, including some 800 000 lbs. The highest figure for choice lots of Northern is 15c ℔ lb, and it continues to be taken as fast as received. Almost the entire clip of the West has now passed into the hands of dealers and manufacturers. Advices from London state that a large quantity of Wool has been disposed of. There was caution in buying and sales [illegible] had languidly on [illegible] terms. Sales terminated at 16c.

The Boston Wool market is firm tending upward for choice, without any marked advance. Sales to manufacturers continue heavy 800,000 lbs California [illegible] during the week at 22@40c for fall.

The Philadelphia Wool market is also firm, with an advancing [illegible] and heavy [illegible] to manufacturers [illegible] at [illegible].

Iron is lower. At present [illegible] quotations for manufactured Iron, it would cost 100c currency to lay it down in New York, while the same quality costs but 80c to lay down from Pittsburgh, a difference of 20c in favor of American mills. Stocks in England are growing less, and there is no prospect of a decline, and with an advance to [illegible] there, with low [illegible] American Iron could be laid down in [illegible] without loss.

There has been an advance of 2 to 5 [illegible] a pound on China Green Tea, 1 cent a pound on Rio Coffee, and 1½ cents, in gold, on Pepper. A lot of California Mustard Seed sold at 4½c.

There have been so [illegible] in Corn for export, that freights have gone up to the highest point of the year, or, for that matter a long series of years, namely 10s 6d to 12s to the continent, and 9s 6d to 10s 6d to the United Kingdom; with a large number of [illegible] taken to arrive some as far ahead as the winter months. All other branches of the freight market are very strong but long voyages are neglected, owing to the scarcity of tonnage.

Hides—The business of the week has been moderate sales being confined chiefly to common grades. Domestic sales embrace 245 California on private terms. Mustard Seed quiet, sales 100 bags California Yellow at 4½c. For China Grass there is a decidedly better market, prices having appreciated ¼@½c ℔ lb
